M.A. IN DEVELOPMENT STUDIES

Development Studies as a professional field of study takes an analytical view on development in its varied forms and processes aspiring for an acceptable standard of living with dignity, equity, happiness and justice within a sustainable environment.

The programme offers the following:

- An interdisciplinary engagement on the questions of development from both theoretical and practice perspectives
- Exposure to empirical literature on development trajectories in India and the world
- Insights on methods and techniques to assess and evaluate inequality and social exclusion and to suggest policy directions
- Knowledge of a wide range of qualitative and quantitative research techniques
- Opportunity to develop and demonstrate hands on skills of doing in field surveys and other research as part of the course curriculum
- Expert and committed faculty members and well-equipped library and computer lab facilities

On successful completion of the course, students will be endowed with skills and experiences to engage in academia as well as government and non-government agencies to work on varied issues related to development
