7 Day Workshop on Stata

10 -- 17 November 2025

Institute of Development Studies Kolkata (IDSK) invites applications from research scholars in social sciences and development practitioners for a seven-day workshop on Research Methods using Stata to be held during 10 -- 17 November 2025.

Objective

The Course intends to train research scholars in social sciences to apply quantitative methods using the software STATA 17.

Course Content

Providing an overview of Stata Basics, the course will focus on data management and graphics. The other topics covered will include linear regression, violations of linear regression assumptions, models for limited dependent variables, factor analysis and PCA, endogenous explanatory variables, quantile regression, panel data, spatial regression, decomposition analysis, meta-analysis and handling National Sample Survey data in STATA. Scholars will receive a hands-on training in analysing data. Each participant will get an exposure to guided research on a specific research question. Participants will present their research and receive feedback from senior scholars on the last day of the workshop.

Who can participate

Scholars at various levels of research in various social science disciplines

Registration (Revised)

INR 6,000 (Non-refundable)

What we provide:
